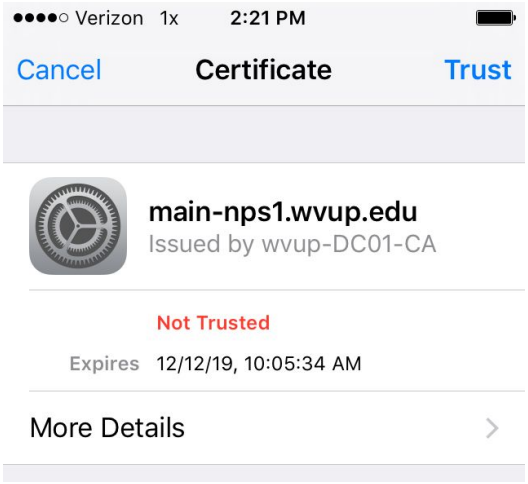
Joining the “Students” or “Employees” Wireless Network

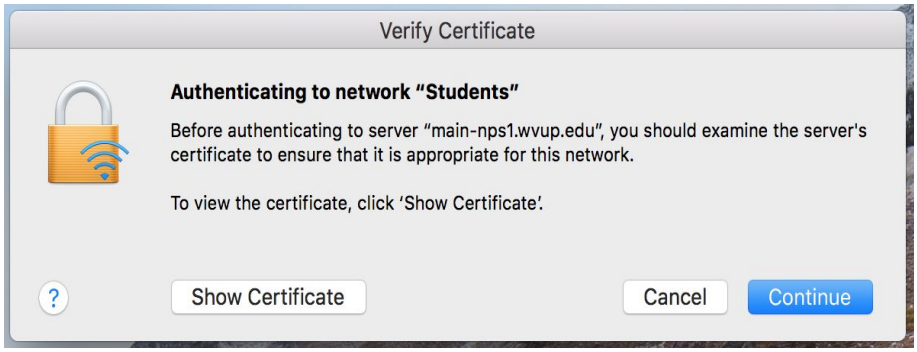
After selecting the appropriate network (“Students” if you’re a student, “Employees” if you’re a staff or faculty member), enter your WVUP network login information, and follow the instructions for your device listed below.

Your device may be different! If so, open a ticket at helpdesk.wvup.edu and let us know! We’ll happily help you get connected!



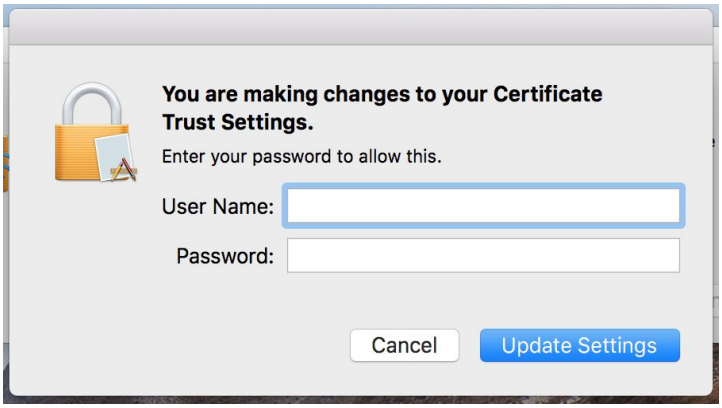
iPhone/iPad

After selecting the network and entering your username and password, you’ll be prompted with this screen. Select **“Trust”** in the upper right corner and you will be joined to the network.



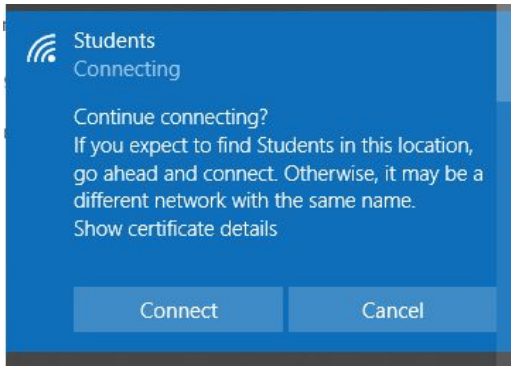
MacBook/iMac

After selecting the network and entering your username and password, you’ll be prompted with the screen on the left. Select “**Continue**” to proceed to the next prompt.



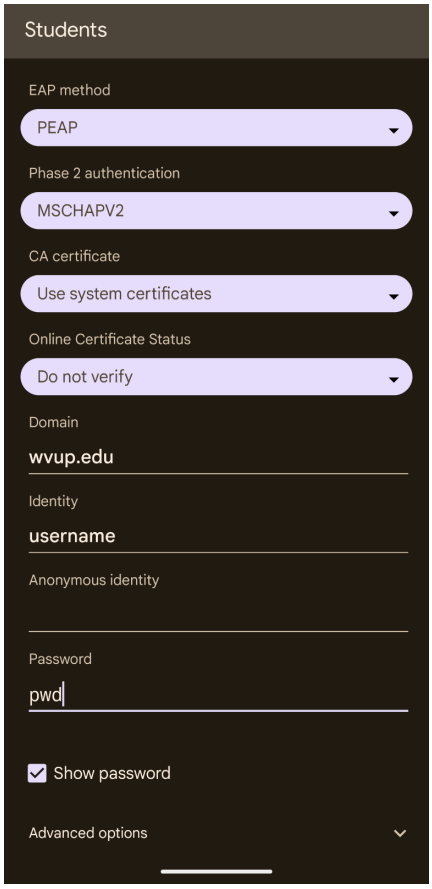
After selecting “**Continue”** above, you’ll be asked to enter the username and password that you use to login to your MacBook (**not your WVUP Network ID**) to complete the process. Select “**Update Settings**” and you will be joined to the network.

Joining the “Students” or “Employees” Wireless Network



Windows 10

After selecting the network and entering your username and password, you’ll be prompted with a message similar to the one in the image on the left. Select “**Connect**” and you will be joined to the network.



Android / ChromeBook

When you select the “**Students”** or “**Employees”** network on an Android device, you may be prompted with a screen like the image to the left. Before adding your credentials, you may need to tap “**CA certificate”** to open a selection menu.

If you do not see this option,
check to see if your operating system is up to date.

- Next, you'll see the "Select Certificate" menu
- Choose "Use System Certificates"
- Add "wvup.edu" to the Domain field
- Leave "Anonymous Identity" blank
